

nFeature_RNA

nCount_RNA

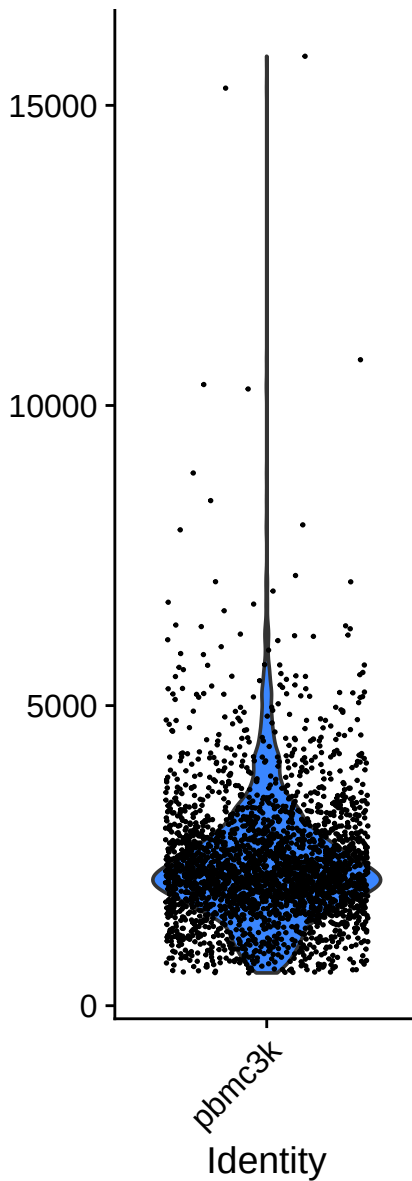

Figure 1: Quality Control Metrics

Distribution of RNA counts

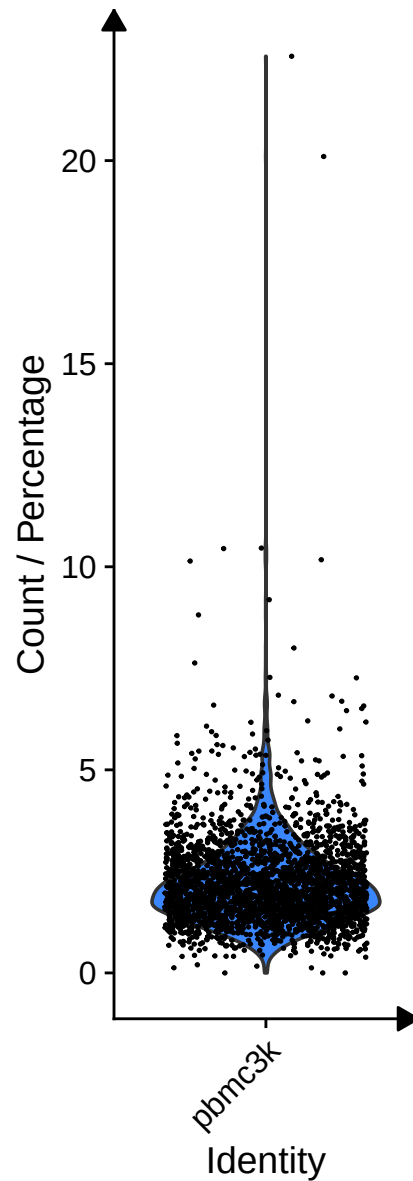

Figure 2: Mitochondrial vs Total RNA

Scatter plot identifying stressed/dying cells (high MT%)

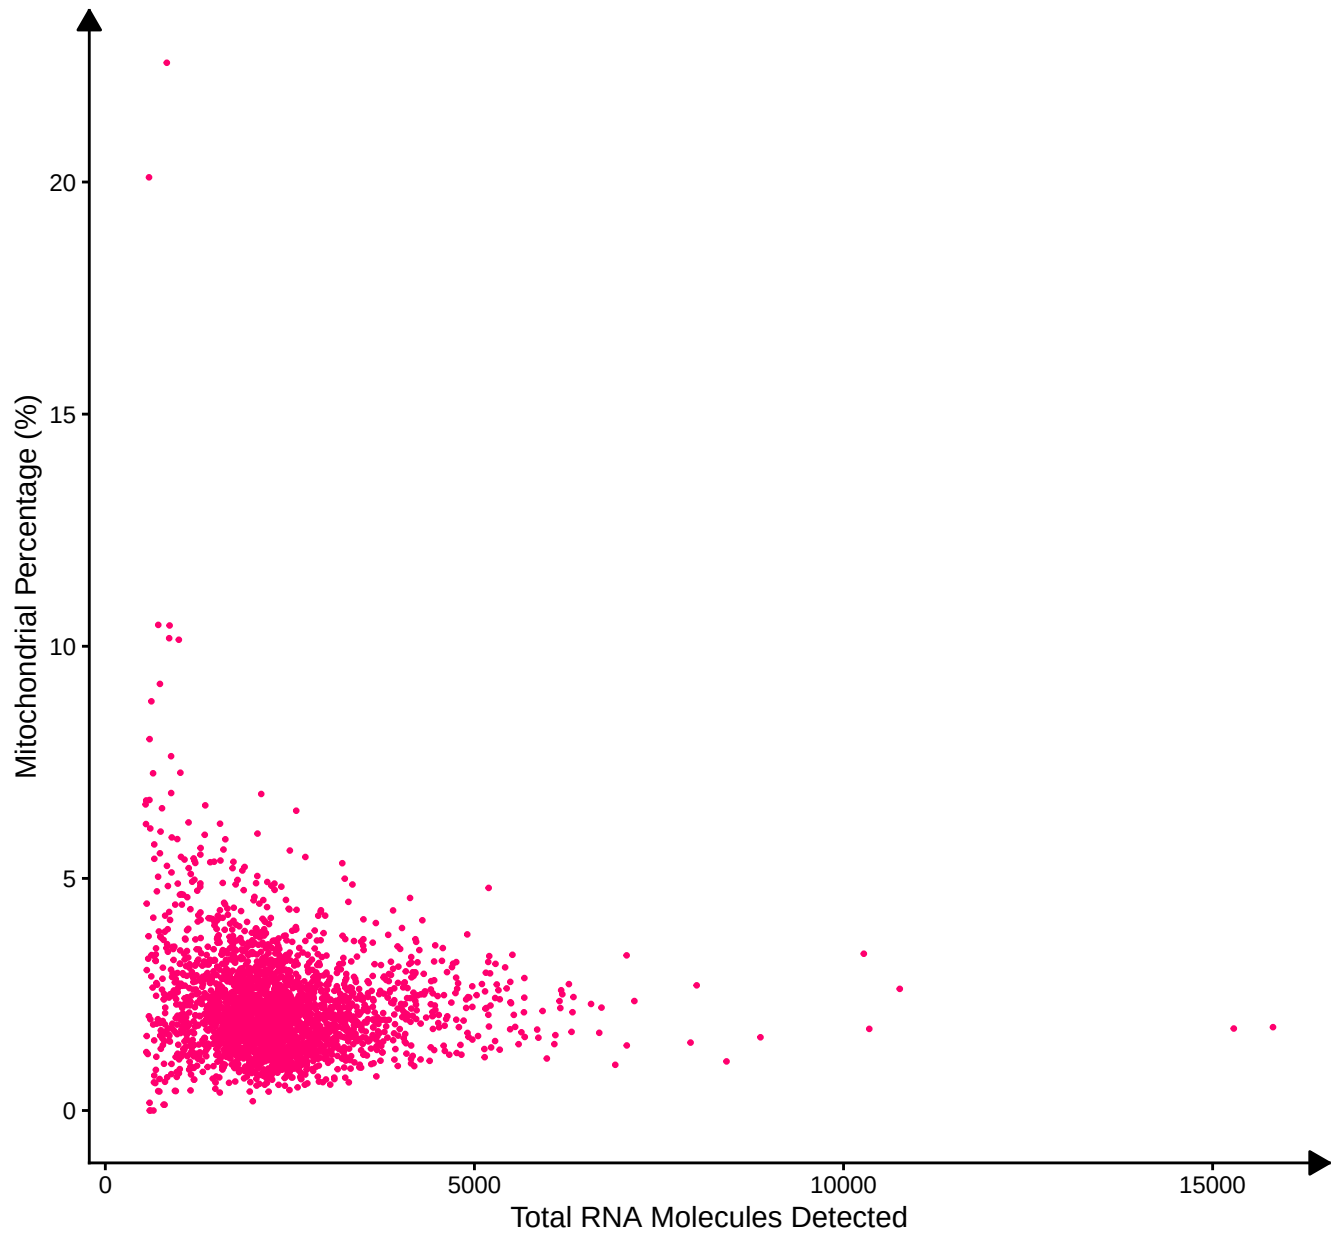

Figure 3: PCA Elbow Plot

Variance explained by each Principal Component

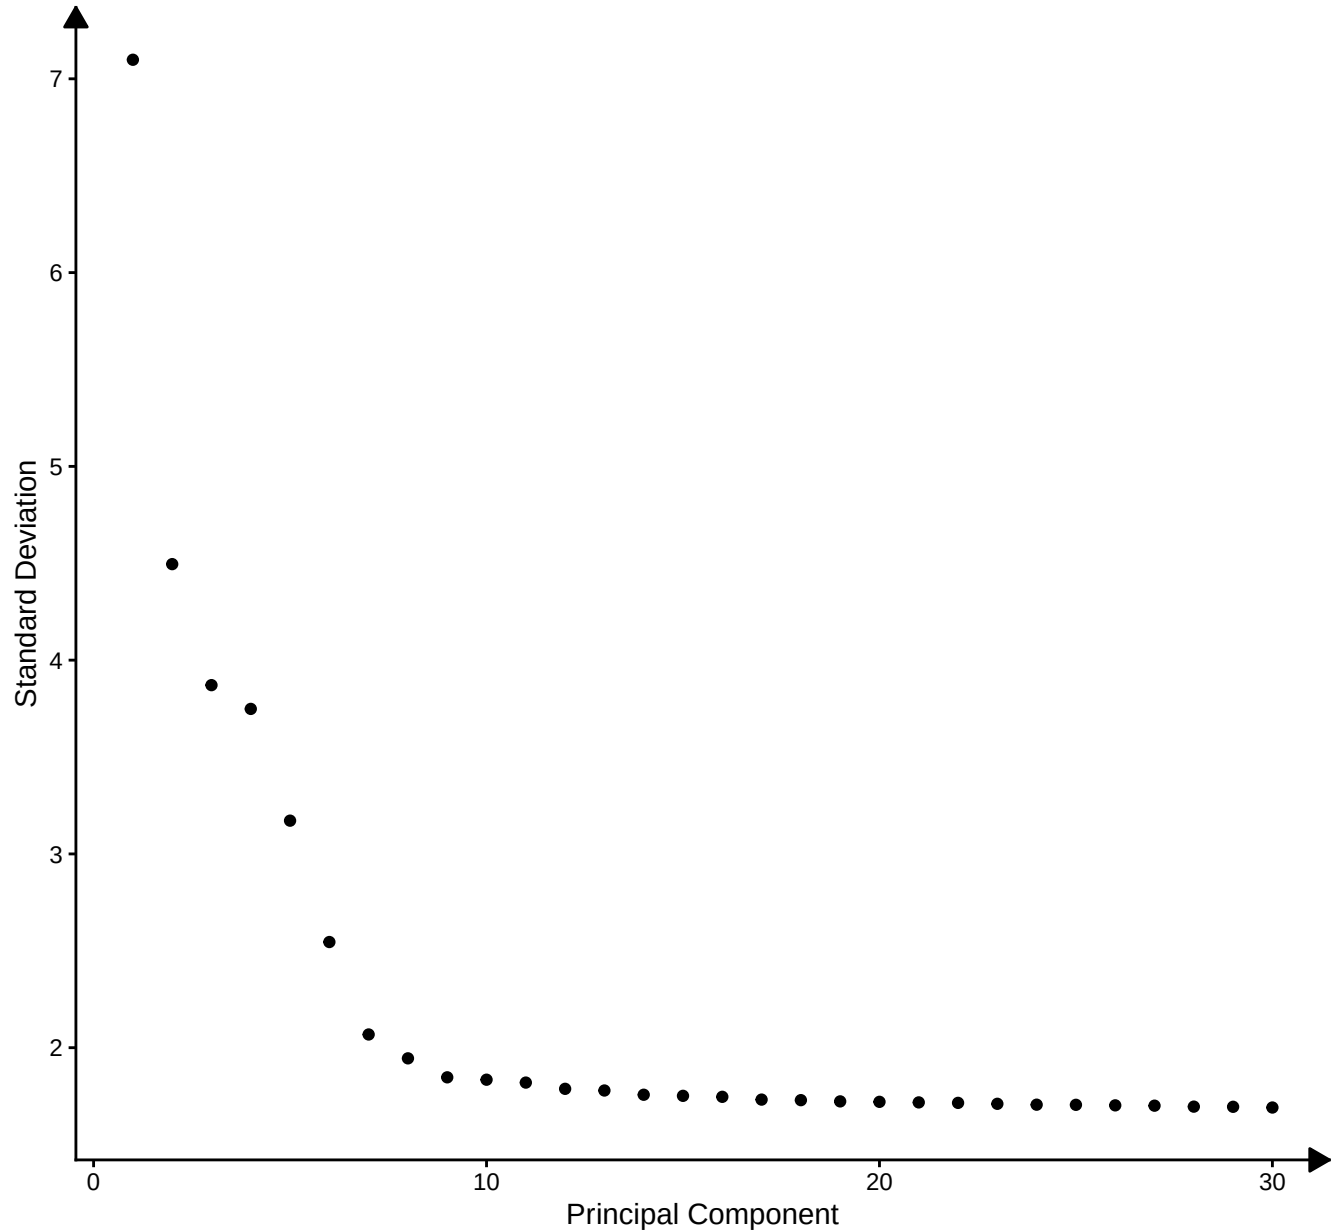

Figure 4: Mathematical Clustering

UMAP projection of K-Nearest Neighbor louvain clusters

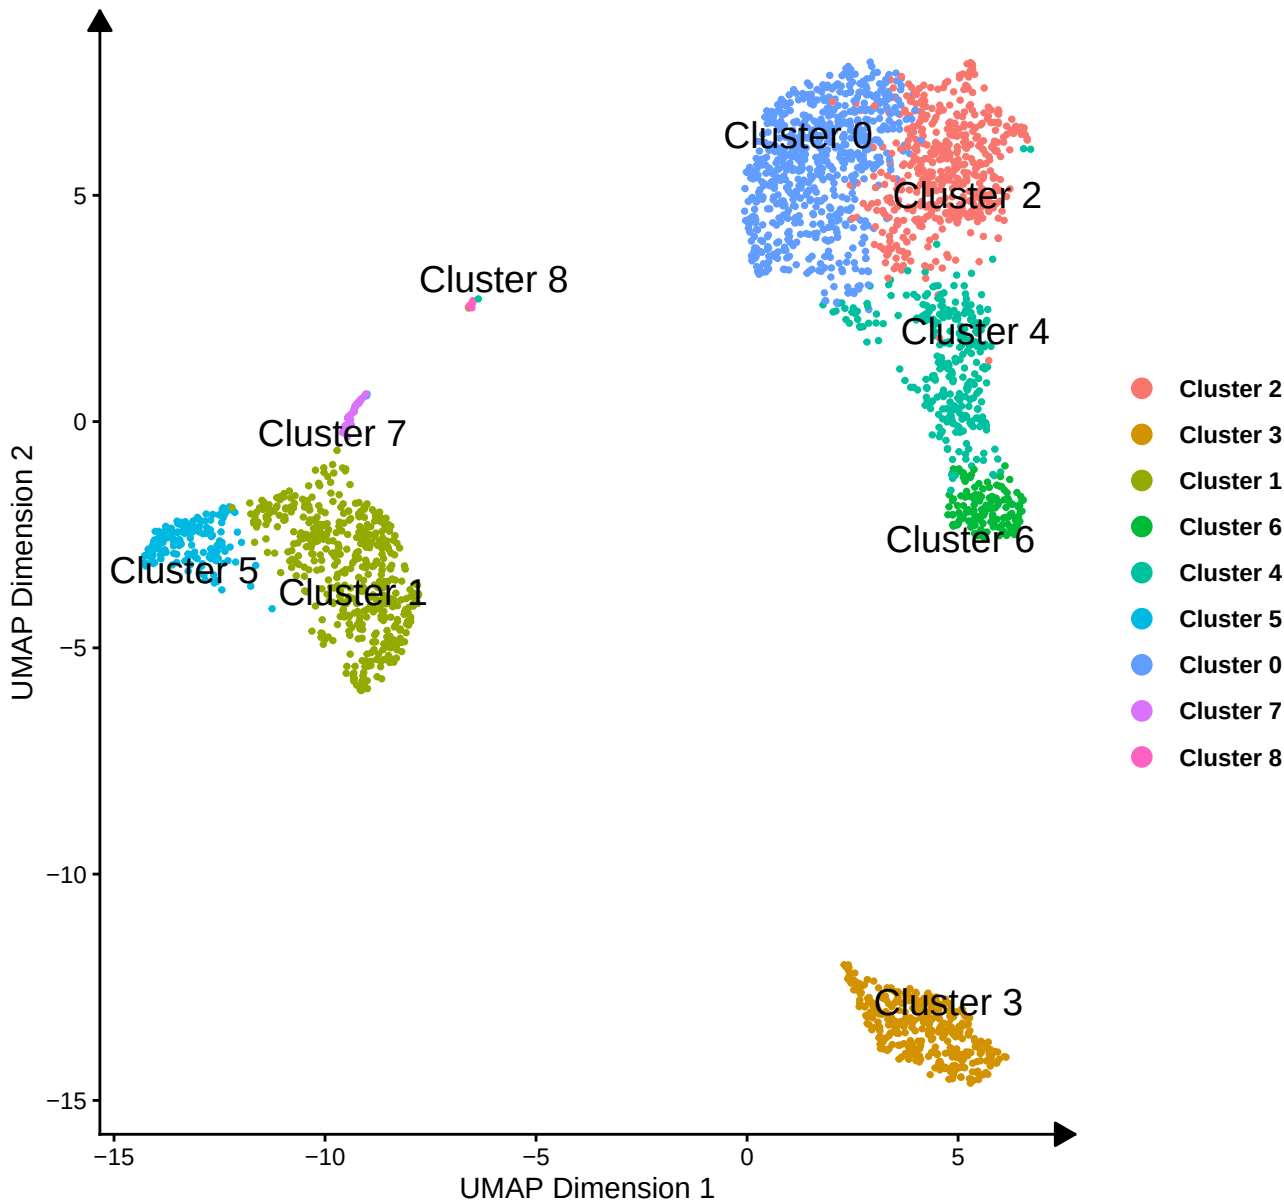

Figure 5: Biological Cell Type Map

UMAP projection mapped via SingleR algorithmic annotation

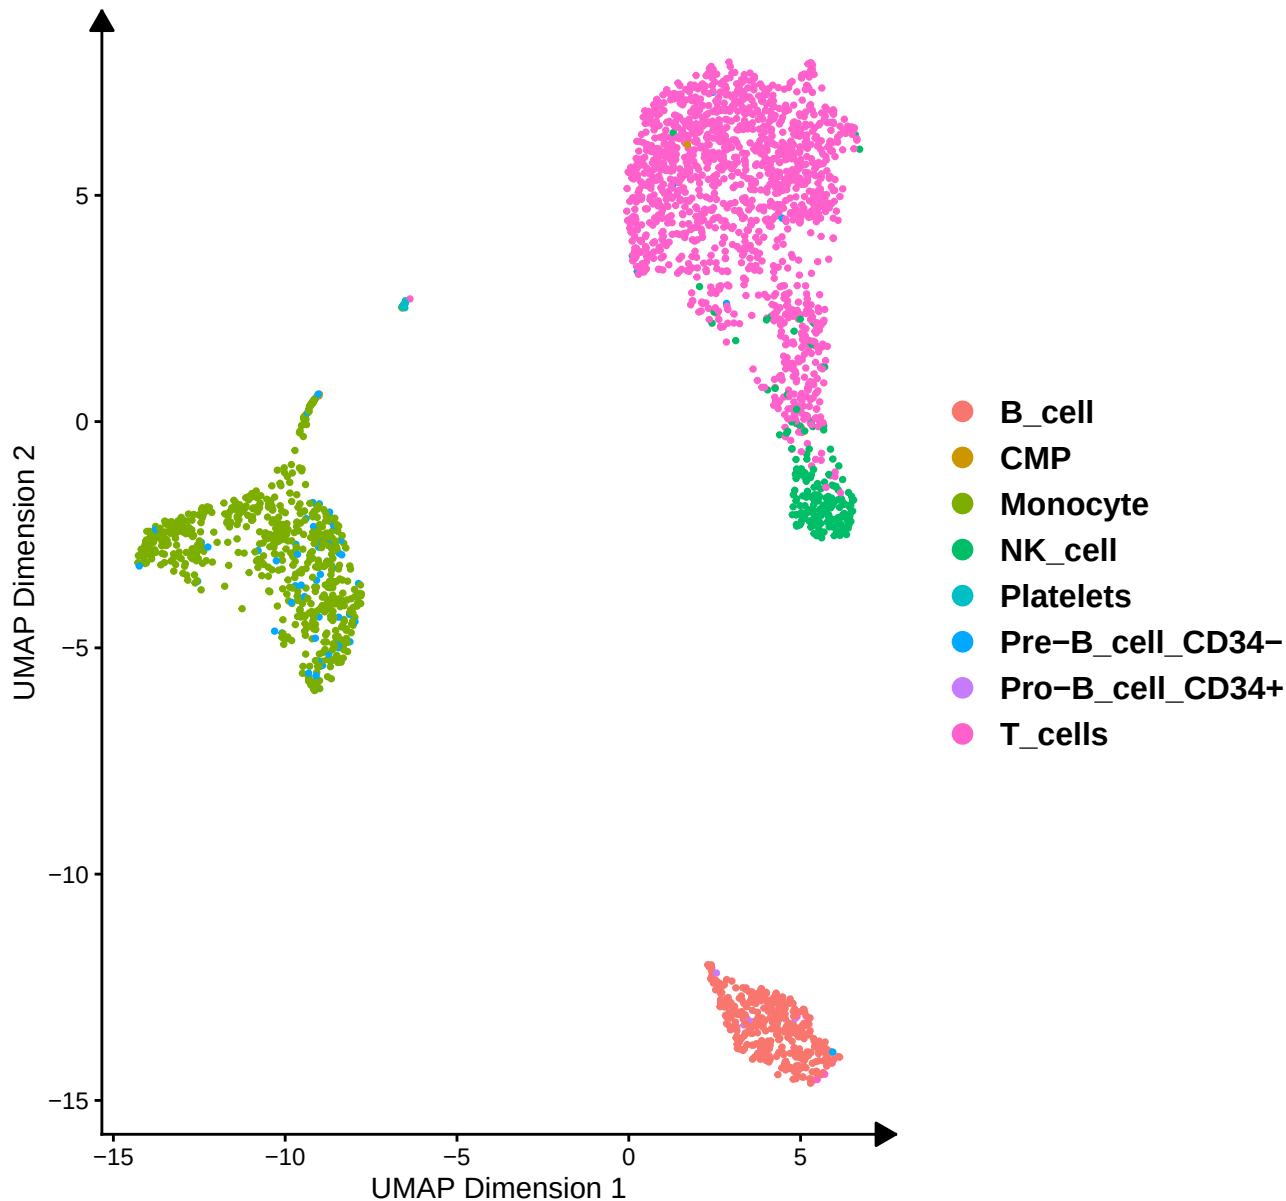

Figure 6: Biomarker Expression Heatmap

Top 5 differentially expressed genes per biological cell type
